About Us:

X Technologies is a leading technology services provider for the DoD and has a proven track record of providing a wide variety of services, products, and technology solutions across the life cycle phases of multiple Air Force Weapon Systems. X Technologies has delivered a wide array of system engineering and development to include Program Management (PM), Trade Space and Capabilities Studies, Demonstrations and Test, Hardware and Software (HW/SW) modifications, Fabrication and Manufacturing, and Logistics support for the DoD and various commercial clients since 1998 as both a prime contractor and as a subcontractor. Additionally, we have over 10 years of experience delivering Identity Credential and Access Management-related support.
